

## CCPM04 – Disciplined Agile® Senior Scrum Master (DASSM) Certification

### Description

This programme prepares candidates for the PMI Disciplined Agile® Senior Scrum Master (DASSM) Certification exam.

Do you want to learn how to successfully lead one, or perhaps several agile teams? Are you looking to accelerate your ability to manage high-profile initiatives that are critical to enterprise success? Do you want to take business agility to the next level by applying agile and lean techniques in a wide range of situations, including non-software teams?

Disciplined Agile Senior Scrum Master (DASSM) teaches experienced agile practitioners how to use the Disciplined Agile (DA™) tool kit to optimise how teams work, work with allies within their organisation, and solve a variety of advanced problems. This 14 PDU course will prepare you to take the DASSM exam and start using Disciplined Agile immediately within your leadership role.

### What you will learn:

- Take a deep dive into the DA tool kit to develop a comprehensive understanding of the hundreds of practices and strategies it contains and the trade-offs of applying them.
- Learn how to apply the DA tool kit to guide your teams in choosing and evolving your best way of working (WoW) in any situation.
- Use the DA tool kit to solve complex challenges commonly encountered in both software and operational business teams.
- Learn how to lead agile teams through key enterprise activities, such as planning, coordinating, and reporting, and be ready to show your improvements in areas where your organisation is struggling.
- Understand how to improve value delivery for your customers by empowering others in your organisation, nurturing emotional intelligence, and resolving conflicts.

### Course Materials

- Access to PMI® Authorised DASSM Content via the PMI® Choice Platform - Access Keys must be redeemed within 12 months of purchase. Once redeemed, your materials are available for 12 months. Access Keys can only be redeemed once.

### Intended Audience

- Two years of experience working in an agile team, ideally in a leadership role such as Disciplined Agile scrum master, scrum master, product owner, or architecture owner.
- Experienced Agile Practitioners.
