

MCLS02 – Master Class – Requirements Elicitation

Description

In today's fast-paced and competitive business landscape, understanding and accurately capturing user requirements is paramount to the success of any project or product. By investing time and effort into effective requirements elicitation, organisations can increase the likelihood of project success and deliver solutions that meet the needs of both users and the business. Our Master Class on Eliciting User Requirements is designed to equip professionals with the essential skills and techniques needed to gather, analyse, and prioritise user needs effectively.

Here's what you'll learn:

- Understand customer needs and preferences.
- Identifying and Mapping the value streams.
- Asking the right questions.
- Prioritizing Requirements

Course Materials

Materials include access to Promote – Our Learning Transfer Platform, Eliciting Requirements Videos, exercises and handouts.
